Business Space for Start-Up or Expansion

Start-up or expanding businesses may apply for business space through REI's business incubator program. Incubators are physical spaces and locations for accommodating many types of start-up or expanding businesses. Assistance is provided to reduce the risk of failure and to help develop the businesses into wealth generating and job creating entities.

Incubators offer excellent benefits to reduce overhead, beginning with a modest rent schedule that is gradually increased over time.

Other benefits include:

- State tax incentive
- Local advisory committee
- Access to business financing
- Access to REI's equipment program
- Consistent business assistance
- Access to REI's statewide network of partnerships and resources
- Office and manufacturing space available

Businesses graduate from the incubator program when they have matured into profitable firms and need to locate into a facility of their own.

Business space is available in 10 Oklahoma communities. [To apply for a facility](#), simply request an application form, complete it and provide a brief business plan. REI works with you through the application process. Your application and business plan is then presented to an advisory group for consideration of occupancy.
